## Market Lake Cleanup

May 10th, 8 AM

We will meet at Mitchell’s Restaurant (615 E. Iona Road) at 8 AM for breakfast and then head to the Market Lake Wildlife Management Area for our cleanup project. Please review the Safety Agenda below before participating in the project.

VMCCA Safety Agenda 2009-Rev 7 Market Lake WMA Road cleanup

This agenda is intended to provide basic safety criteria that applies to the twice-annual club Market Lake WMA road maintenance. These criteria will be reviewed in the club meeting just prior to the scheduled cleanup operation.

Most safety considerations are applied common sense that are individual responsibilities:

- Participants must be physically able to participate. Alcoholic beverages or drugs are not permitted in the performance of this work.
- Drinking water and other liquids should be available.
- Proper clothing, consistent with anticipated weather conditions should be worn and available.
- Sunscreen and insect repellent should be available.
- Roadside shoulders and berms are steep and in many areas slope directly into deep water. Under the right conditions they can be slick. Care should be taken when working along these shoulders.
- Do not work alone. As a minimum two people should work together.
- One designated member will come with a pickup, shovel and rake to facilitate retrieving hard to reach items, a first aid kit, a cell phone and other miscellaneous materials [e.g. trash bags].
- In general, remember we are working in a rural, wildlife habitat area. Snakes and insects, while not identified as a problem in this area, are always a possibility. Be aware of your surroundings and where you put your hands and feet.
- Accidents, injuries, and any unusual observations should be promptly reported to the Idaho Dept. of Fish & Game [Office Phone 525-7290 or cell phone 390-0615 for urgent matters].

Retrieved trash will be placed in The Idaho Dept. of Fish & Game compound dumpster upon completion of cleanup. The Idaho Dept. of Fish & Game will also provide road caution signs to be used as necessary during cleanup operations from the compound at the beginning of cleanup.

These requirements are incorporated in the Idaho Dept. of Fish & Game Adoption Agreement and its attached Liability Statement and will be reviewed and distributed in the Club meeting prior to each scheduled clean up activity. This Safety Agenda has been agreed to by the Idaho Dept. of Fish & Game.

The potatoes that were seen will not be in production for about 5 years. John Dawdy thought the new facility was especially impressive. EIVMCCA member - Aron Derbidge did a great job conducting the tour and sharing information. The group toured across Bonneville County to Ucon where and had a great lunch at the Rusty Lantern.

## President's Message

Once again – what a month. I have quite a few sign-ups for the swap meet so that is going great. Thanks to all who mailed out the flyers – great job. Also, kudos to Dawn – we now have 4 food vendors signed up for the swap meet.

For those of you who didn't hear, Ike Ikard fell and broke his hip and 2 ribs. He is doing better, he is at Bingham Memorial Hospital in Blackfoot.

The weather hasn't been too good, but this week looks better. Have a super May!

Larry
